# The 'Science' in Maths and Science Week

Ms Schreuder

The very successful Maths and Science week started off with the much anticipated Science Amazing Race. Six teams waited eagerly in the quad to get their first task where they had to decipher clues or answer questions in order to find the location of their next task. Clues to the task locations were only revealed if the previous task was correctly completed.

The six teams were all successful as they reached the end of the race before break-time ended. Congratulations to the winning team of Lakhanya Peter and Mia Schulz in Grade 11. A special shout out to the Grade 12s Chloe Beaton and Amber Mendes

for participating without even taking Physical Sciences as a subject...and they still aced it!

One of the tasks is outlined below - try it and see whether you are up for the challenge in next year's Science Amazing Race!

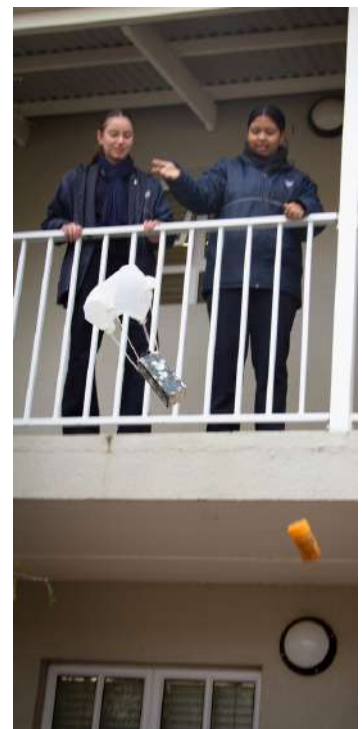

A highlight of this year's Science activities in the Maths & Science week was the science show we hosted for Rhenish Primary. Twenty Grade 7 learners from Rhenish Primary joined us one afternoon after school and our own STEM club members showed them a variety of cool science experiments. From indicator colours changing in acids and bases to

forming colourful precipitates and burning magnesium (brightly!) in oxygen. Ms Schreuder ended off the afternoon with some bigger demonstrations. We really enjoyed the visit from the Primary School and will definitely do this again in the future.

Thank you to the STEM club for their hard work and enthusiasm in the Maths & Science week. Your hard work is appreciated!

The week ended off with an exciting egg-drop competition. Using only recycled material, learners had to build a contraption that they could use to attach to an egg. The idea was, of course, that the egg reached the lower level in one piece! Congratulations to the winning teams and to everyone who participated.

## TASK: Use the Periodic Table as a map.

- Go to Group 17 Period 4
- Move up to the element with the highest electronegativity
- Move left to the element with atomic number 6
- Move diagonally down to the left until you reach the first very expensive metal used to make jewellery
- Move one up to the metal we usually use in conducting wires
- Move left the first magnetic metal
- Move three spaces right
- Move two spaces up
- Move two spaces left

The atomic number of the element where you end is the room number in the C-block here you will receive your LAST task. Hand in this sheet of paper.

# *Siyaphambili entertains at Westerford High School*

On 19 July, the Siyaphambili Choir attended the Westerford High School cultural evening; however this time around they were accompanied by the Culture Portfolio Matric Learner Council – Chloé le Roux (Head) and Tamzyn Appolis. This was the last cultural evening to be attended for the year as well as the last for the outgoing matrics in the society.

The evening was filled with amazing performances and guest performers. The choir especially enjoyed the opening performance by SACS and Westerford Marimba Band as well as the closing performance being Sarafina – a movie about a young girl and her peers who fought for freedom after the Bantu Education Act was implemented during Apartheid. This was special as it has never been done before by other schools. The choir had a great experience, interacting with different schools, such as Rondebosch Boys' High School, Herschel Girls' School, Wynberg Boys' High School and many more.

As the Siyaphambili year comes to an end, on behalf of the matrics in the society, I can definitely vouch that this was a bittersweet moment as we kept remembering that this event would be our last before the final stretch of matric. The girls made us feel so proud of the society we have grown and moulded to be a group of passionate and loving girls who are rich in culture and wealthy in humanity.

A special thank you to Mrs Booie and Mrs Jikela who have made this year absolutely exciting for the girls and have never failed to keep our best interest at heart. Their hard work never goes unnoticed.

# Top 12 2024...Feel it, it's here

**Danni Henn (U14A captain), Leah du Plessis (U18A captain) and Emma Lurie (U16A captain)**

Three Rhenish Hockey teams will be taking on the 11 other top hockey teams as the U14A, U16A and U18A will be participating in the SA School Sports Top 12 Hockey Tournaments for these three age groups. The tournaments will be taking place in Bloemfontein (U18A) from 7-11 August, Paarl (U16A) and Stellenbosch (U14A) from 8-11 August 2024.

Rhenish Girl's High School is only one of four schools that will have all three of their A-teams groups participating in these prestigious competitions.

The three teams qualified in the following positions:

- U14A - 7th place
- U16A - 4th place
- U18A - 2nd place

This will be the third year that Rhenish Girls' High School will be hosting the U14A tournament and we look forward to welcoming the schools to the Winelands to experience true Rhenish spirit and hospitality.

We wish these three teams all the best for the various competitions - you can view the games on the Supersport Schools App or you can follow on the Supersport Schools channel on DSTV.

*(You can view the fixtures for all three teams on the next pages)*

*Let's support all  
 our teams!*

After receiving a phenomenal A++ in the provincial rounds, of the On The Tip Of Your Tongue Competition, Gabriella Martin has now been invited to participate in the competition's National Final.

The following Rhenishers participated in this year's Eksom Science Expo and achieved the following results:

Jemima Schipper & Ingrid du Plessis - highly commended

Demira Ramjugernath - bronze

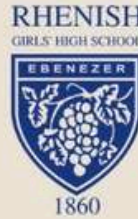

Mila Woermann & Alexandra Niesler - silver & best senior project in their category

Chrissa Worship - silver
